COMPANY NEWS RELEASE

## **WE'RE MOVING!**

### **APC TO OPEN NEW FACILITY IN CHESAPEAKE, VA**

#### **To All of our Valued Customers, Vendors and Suppliers:**

American Packing & Crating is pleased to announce that we will be moving our operation to a modernized 70,000 sq ft warehouse facility located in Cavalier Industrial Park in Chesapeake, VA. The new facility will replace the company's current 5578 Sabre Road, Norfolk location.

We will phase out business at the Sabre Road facility within the first few months of 2012, and plan to be fully operational at our new facility by March 1st, 2012.

It is an exciting time at APC, and we are thrilled to move into a new facility that will enable us to continue growing our company and continue to better support the demands of our customers. We take a great amount of pride in the fact that we are able to invest in our company at a point in time when many other businesses are continuing to cut back. APC was founded with the intent to take the steps necessary to better serve our customers and be proactive in our pursuit of leading the industry in customer service.

As we begin this new chapter in APC's history, more information will become available as to when receiving of freight will begin at our new location and all will be contacted with operational updates. For now, please see below for details on the new facility.
